M. L. Beistle Paper Money Collection
And Other Fine Consignments

TO BE SOLD
SATURDAY, APRIL 18, 1936

By the Cataloguer
M. H. BOLENDER
ORANGEVILLE, ILLINOIS

TERMS OF SALE

All coins and bills guaranteed genuine.

New bidders or customers sending in bids for the first time must positively give first class reference, bank reference preferably, or else send a deposit of at least 25% of the total amount of bids. Otherwise, their bids will not be accepted; application of such deposit will be made upon successful bids; the seller reserves the right to demand payment upon successful bids before delivery in his sole discretion. To those known to me who have established credit, a reference or deposit is not necessary and purchases will be sent out promptly after the sale. In appreciation of this courtesy the purchaser remits promptly.

Collectors who make unlimited bids will get the lots at 5% above the highest actual bid entered.

The terms are prompt cash settlement after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.

Remit by money order, draft, check, or in any way most convenient. Stamps accepted for accounts that are below one dollar only.

Coins will be bought below your bids where other offers permit, as this is competitive bidding, executed in good faith.

The usual charge of 5% will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. This fee is very low for the superior service I expect to give you.

Receipted bills are not sent out after your remittance as this is unnecessary. Your check, draft or money order itself is a receipt. However, if a 3-cent stamp is enclosed we will send receipt.

Be certain that you bid on the lot you wish to buy. We will correct errors and adjust claims, but you should not expect us to pay for your mistakes. Be careful in making your bids. Be sure that you bid on the lot you wish to buy, and at so much per piece.

Bids must reach me by the morning of the sale. Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same,

and there are no higher bids, the first received gets the lot. When two or more unlimited bids on a certain lot are sent, the first one received gets the lot at a 5% advance over the highest actual bid.

Between the seller and buyer, my position in describing the condition of coins and bills has been neutral. My classifications are generally considered to be conservative, by the collecting public.

It is easy to bid by mail. If you do not know how much to bid on any items, write me giving numbers in catalog and I shall be glad to inform you as to values. It is useless and a waste of time to make low bids that have no chance of success. I sincerely hope that each collector acquires some nice lots from this sale that give him a real thrill and joy of satisfaction.

Please bid by the piece unless stated to bid for the lot. Thus, if there are 12 pieces in a lot and you wish to pay \$6 for the lot, then bid 50c. At each sale someone bids by the lot. Don't do this—bid by the piece.

ANCIENT COINS

1. **Athens**, after 490 B.C. silver tetradrachm. Head of Athena, eye almond-shaped. Rx. owl, AOE, olive branch and waning moon. Very fine.

 1065. 1936 Rhode Island half-dollars. P, D & S mints. Unc. 3 pcs.

END OF SALE

COIN CHATTER

This new department to our catalog has been added with the hope of helpfulness, assistance, information, and better understanding and coöperation. We shall be glad to publish any brief notes sent in by collectors, or any comment, providing it is of enough common interest to enough collectors.

The Snow Blockade. We are sorry that we could not get out the auction lots from our Feb. 8th sale with the usual promptness, because of the blizzard. All means of transportation were at a standstill for some days. Highways were opened with snowplows, only to be blown shut again within a few hours, and large forces of men worked on them for some days. Train service was practi-

cally nothing for a week, with locomotives literally buried in the snow. Under the conditions it was useless to ship the purchases.

Auction lots are generally shipped from our offices five or six days after the sale date, and should reach the buyer in from one week to ten days after date of sale. Very many bids arrive on the last morning of the sale. It takes a day to enter them. Another day is consumed in knocking off the lots to the highest bidders and in clerical work. On the third day the itemized statements are all prepared. The next day the material is all sorted and placed with the proper bills. Two more days are consumed for packing and shipping the lots to the hundreds of purchasers. Thus, you should expect your awards in from one week to ten days after a sale.

Unlimited Bids Don't Always Win. "What happened to my unlimited bids?" wrote one good customer after my last sale. "I didn't get a thing." To us the answer is simple. There were unlimited bids ahead of him on the several lots. On one lot we had four unlimited bids. Only the first one has any chance of success, the other three must be disregarded. If the highest actual book bid on the lot is \$5, the lot then is sold to the first unlimited bid entered at \$5.25. We are receiving more and more unlimited bids from our friends at every sale, because those who know us best realize that we believe in the golden rule, execute the bids with good sense, and purchase all lots as cheaply as other actual bids permit. We don't believe in holding up a customer when we get a chance, because we will be in business for a long time, and desire to retain and enlarge our clientele.

Bid on the Right Lot. At each sale someone makes a mistake and bids on the wrong lot. It is an easy matter to set down the correct number. I have bid at practically all coin sales over a period of twenty years, and bought thousands of dollars worth of coins on all markets of the world, and I have never yet bid on a wrong lot, and don't expect to. Collectors who make a mistake and bid on a lot they do not want, are expected to take and pay for the lot. It is unfair to ask others to pay for your mistakes. Our statements are usually correct as rendered.

Returning Auction Lots. Auction sales are not approval sales, and no collector can offer me a greater affront than to return an auction lot from my sales. The lots are carefully catalogued, and the attribution and descriptions guaranteed correct. It is considered unethical to return lots bid in at auction. No one but a new collector or an inexperienced one does it. Such a person is over-cau-

tious. The large dealers and important numismatists don't return a lot, and they are the big buyers. The fellow who buys a couple of dollars' worth is usually the biggest kicker. We had one person pick out the 5 poorest coins from a lot of 30 large cents, that were sold in one lot. No lot should be separated. If anything is not satisfactory, the buyer should take his case in writing promptly, before returning any coins. The dealer then owes the customer a reasonable answer, and an adjustment if the cataloguer is at fault.

Last Day Bids from New Collectors. Very often a new collector bidding for the first time at the sales, submits his bid sheet on the last day of the sale. His good standing is unknown to us, and he sends no deposit, but a bank reference. The time is too short to look up his reference, and we can not execute the bids. These new collectors should allow us a few days time to look up their references. If the time is late, send a postal money order for deposit, and the bids will be entered.

Yes, nearly all have the "L." Collectors cause trouble sometimes because of their own inexperience. We have been bothered a lot with young collectors buying 1864 cents with "L" on ribbon, and then sending them back, claiming the coin is the one without the "L." The "L" system was adopted late in the year 1864, and those having the letter are scarce. All the Indian head cents after 1864 have this same "L." I once overheard a debate at a convention of the American Numismatic Association, where a dozen of our good members agreed in the opinion that none had the "L" except some of the 1864. The same "L" may be seen on those coined from 1865 to 1909 also, and is on the obverse side, on the ribbon, between the lowest feather of the headdress and the nearest curl. If the coin is turned so the date is at the right side and the nose down, the "L" is then read in proper position.

Priced Sales. We do not issue price lists for all our sales, but only the largest and most important. The price is \$1 each, and we always have some left, of recent sales. We can supply them at any time as long as the supply lasts. They give useful information on present-day values, and assist in bidding. We do not issue price lists of a sale unless so advertised in advance. We have a few left of the 102nd sale held March 14th at one dollar.

Have you a Hard Luck Story? Then don't tell it to us. We also know a few, but they are for us to worry about. The terms of our sales call for prompt cash settlement, and collectors should

not expect to take 30 days' time before paying the bill. Set aside the money when you bid, and you won't need to make an alibi. One fellow sent us eleven excuses thus far, as to why he does not pay his bill, and promised to pay it two months ago. If we don't receive it by next month, we will publish a few of his stories.

No, we Don't Tell Fortune. A good customer asked us for estimates of the values of a few numbers at the last sale. We replied with our advice based on our best judgment and experience. The collector sent in his bids as I suggested. He lost out on several of the numbers and then blamed me for it. I had advised him to bid \$2 on a coin that sold at \$4. I missed it on that one. But I can not help it, if a coin brings more than I think it is worth. There is real competition on nearly every lot. Collectors should make their bids higher than my estimates, to insure better success. The lots will average around my estimates nevertheless, and the customer will be pleased to receive lots below his bids. We often buy a coin for a collector at less than half what he bid. In executing the bids, the advances are made on about a 5% basis.

Sending Auction Lots. We can give as prompt service as any market, in selling your coins. As soon as we finish one sale we have started another. Therefore, you may send in a collection or consignment at any time, and without notice, and expect prompt service. The rate of commission runs from 20% to 35% according to the value and quality of the consignment. The better the material the lower the rate. A large or valuable consignment should be shipped by express insured. On express shipments, the insurance on the first \$50 is free, and then 10 cents for each additional \$100. Smaller lots may be sent by insured parcel post carefully wrapped, or by registered mail. Use good sense in packing the coins. We had one collector send us several hundred cheap foreign coins, and each coin was wrapped in paper individually and inserted in an envelope. It required three hours to get the coins out and ready for classification. A better way is to take a piece of paper and lay the coins in rows; then fold the paper over and over, row by row. Rare coins may be enveloped individually, of course.

Do you Read the American Magazine? Attention of collectors is called to the five-page article in the March issue of the American magazine, entitled "Money in Your Pocket," by John R. Tunis. The article is about coin collecting, and contains several good anecdotes. It is better than most such articles printed for the general public, for there are only four or five incorrect statements, or mis-

leading ideas. Our mail pouch has bulged considerably the past week, with inquiries from the public about old coins. Most of them have 1903 or 1922 cents taken from banks or circulation, and worth no more than face value, about which they inquire, and expect a fortune. The odd thing about it is the fact that fully ninety per cent of this sort of clientele are too thoughtless to enclose a stamp for a reply. On the basis of 100 inquiries a day, it would cost us about \$1,500 a year to answer these inquiries, besides our time and that of our assistants. Do you blame us for throwing such inquiries into the waste basket?

Prices are Better and Improving. At our 102nd sale held on March 14th, very good prices were realized in all series. A fine California gold \$50 slug brought \$200 and a \$3 gold piece of 1876 sold at \$210, on a bid of \$225. The 1794 half-dollar very good sold at \$13.50, 1811 gold \$5 very fine at \$18; 1834 North Carolina gold dollar very fine at \$12.50; small cents of common dates in choice condition, unc. and proof, bringing 35 to 60 cents each; a fine 1648 Brunswick-Luneberg triple crown sold for \$21; a 1793 large cent chain type, very good sold at \$22.50; a fine 1793 Liberty Cap cent at \$40; 1799 cent good at \$21; 1879 Goloid metric dollar at \$7.50; 1652 Pine tree shilling, fine, at \$17 to \$20 each; Oak Tree shilling, very good, at \$16; an uncirculated 1796 quarter at \$32.50; fine 1798 dime at \$10; 1796 LIBERTY cent in fine condition at \$11; a 1797 cent Doughty 96 (rare) very fine at \$18; all other coins and bills sold well, and commemoratives brought record prices with \$8.25 for Hudsons and \$17 for Missouri bid.

New Commemorative Half-dollars for 1936. From present indications the outlook for additional and new commemorative half-dollars this year is an interesting one. If plans hold out, there will be no less than ten or twelve new issues, with some of the committees following the unpopular methods of issuing pieces from the branch mints, too. Together with the 1936 Providence, San Diego, Texas and Arkansas coins of all three mints, there will likely be from 20 to 40 new commemoratives for the average collector to accumulate during the one year of 1936. So, beware! Boys, and prepare! New issues will include Elgin, Ill.; Delaware Tercenary; Columbia, S. C.; Wilksburg, Pa.; Whitman Centennial; Albany, N. Y.; Long Island Tercenary; Shreveport, La.; and Battle of Gettysburg. What a headache!

For 48 years its monthly visits have been a source of inspiration and a stimulus to all grades of collectors from the beginner to the advanced student.

The Numismatist

An illustrated monthly for those interested in Coins,
Medals, and Paper Money

The volume of 1935 contains 916 pages.
